Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by the inflammation of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but a local inflammation of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Victoria Not Fond of Dress.

The queen's moderation in state dress has been remarkable when contrasted with the display made by other queens and empresses. Her jewels and wear of lace have been worn over and over again during her long reign and must be as good as new now. As for the crimson velvet and ermine that she wore at her coronation, she has worn it many times since, and it is still as good as new.
